

VIRTUAL SUSAR MSOC CONFERENCE 2021

May 19 - 20, 2021

Virtual SUSAR and Medical Special Operations Conference

The State Urban Search and Rescue Alliance (SUSAR) and the Medical Special Operations Community are proud to invite all first responders to this year's official Virtual SUSAR and Medical Special Operations Conference (MSOC). The Medical Special Operations Community has again partnered with the State Urban Search and Rescue Alliance in 2021 and together will host a virtual conference and training event.

We continue to provide military, federal, state, and local first responders with an opportunity to share their experiences, best practices, and ideas. Each year, our events continue to evolve to include current hot topics, the latest technological updates, and recent case studies from around the world.
