

Future First Responder: Accelerating Public Safety Communications Research

Hello Randy,

Join NAPSG Foundation and Senior Leaders from NIST's Public Safety Communications Research Division (PSCR) for this virtual seminar regarding the latest research on first responder communication technologies and upcoming funding opportunities.

- Learn about Federal research developed to advance first responder communications technologies.
- Receive valuable information about upcoming funding opportunities, as well as how to get involved as a participant, partner, and/or subject matter expert.
- Gain insights on the most anticipated 2020 research news and impacts across technology areas, such as mission critical voice & location-based services, user interfaces/use experience, security, analytics, and resilient systems.
- Join the community! Contribute your voice to the conversation, and help influence the future of public safety communications technology research and development.

Register today and join us for this no-cost virtual seminar!

Topic: Future First Responder: Accelerating Public Safety Communications Research

Date & Time: Thursday, April 16th from 2:00 pm-3:00 pm Eastern

Where: Virtual seminar via ZOOM - Join from a PC, Mac, iPad, iPhone or Android device.

Call to Action!

NAPSG Foundation, NSGIC, and URISA have joined forces. We are requesting that the geospatial community participate in a nationwide effort to build a National Inventory of Data Feeds for Health/Medical Capabilities in support of COVID-19.

Your feedback will help current response efforts as well as increase public health data preparedness in the future!

- Complete the Inventory Form: <https://arcg.is/1XjGOS>
